03 **CONNECT**

Dear Stakeholders,

As Günaydın Kilit Jewelry, we have been committed to quality, trust, and innovation since our founding. For us, every lock is not just a product; it's a reflection of craftsmanship, durability, and a sense of responsibility.

Despite uncertainties in the global economy and sectoral changes, 2024 was a year in which we maintained our growth momentum and took new steps toward sustainability. Our priority goals included reducing our environmental impact, making our supply chain more responsible, and developing projects that contribute to society.

This report summarizes the work we've done over the past year, our achievements, and our vision for the future. Your trust gives us the courage to take even stronger steps. I believe we will move forward together, even stronger.

Kind regards,

Mehmet GÜNAYDIN

Founding Partner – Günaydın Kilit Kuyumculuk

Dear Business Partners,

Sustainable growth and social responsibility are the cornerstones of our existence at Günaydın Kilit Kuyumculuk. As always, in 2024, we focused on manufacturing not only today's needs but also the needs of the future.

During this process, we implemented programs that support the development of our employees, adopted technologies to increase energy efficiency in our production processes, and established long-term, trust-based partnerships with our stakeholders. Gender equality, environmental protection, and innovative design were at the core of our strategy.

This report reflects both our efforts this year and our planned steps for the coming period. Working together, we will continue to add value not only to our industry, but also to society and our planet.

Kind regards,

Veis YILMAZ

Founding Partner – Günaydın Kilit Jewelry

About Us

As Günaydın Kilit Kuyumculuk , we produce the unseen but most important part of the jewelry world: safe and aesthetic lock systems .

**The value of a
piece of jewelry
is completed
with its
confidence.**

Since our founding, we have been manufacturing locks that ensure the integrity of gold and precious jewelry, never compromising on quality, durability, or craftsmanship. By combining the finer details of traditional craftsmanship with modern production technologies, we offer products that distinguish the industry. With their durability, compatibility, and elegance, each of our locks is not just a single piece but a cornerstone that complements the reliability of jewelry. Prioritizing customer satisfaction, we provide services with fast delivery, technical support, and custom manufacturing solutions. Whether small-scale workshops or large jewelry brands, we create custom products tailored to our business partners' needs and enhance their designs.
